- Distribution
- Manufacturing
- Supply Chain Collaboration
- CRM - Service Management
- CRM - Sales and Marketing
- Financial Management
- Project Management
- Fixed Assets Management
- E-commerce

Expertise through association and experience

Synergistic Innovations Sdn. Bhd. has a wide local and international customer base from various industries, including manufacturing, trading and distribution, financial services, professional firms and government agencies. We are constantly striving to keep our customers at the leading edge of technology.

Synergistic Innovations is a member of the Innovations Resources Group, a dynamic and fast expanding group which, over the years, has become a leading solutions provider throughout the region, having won several awards for services rendered to our customers.

Synergistics Innovations - The Centre Of Business I.T. Solutions

The Synergistic Innovations team is a blend of trained business and IT professionals. They have been specially chosen for their expertise and experience in implementing enterprise business solutions for medium to large sized corporations. Synergistic Innovations offers **Professional Consultancy Services** to advise customers on solving their business requirements.

Synergistic Innovations follows a certified methodology to ensure all processes and results are accurate. Therefore, we are able to help corporations complete every aspect of their **Project Implementation and Project Management** on time and on budget.

The proven methodology also provides for proper **Support and Maintenance**. Synergistic Innovations' customers are assured that their systems will continue to operate at an optimum level with minimal downtime.

We provide **Diagnostic Services** to help customers ascertain the state and configuration of their current IT setup. We evaluate their business thoroughly and recommend the most suitable solution.

Synergistic Innovations also offers regular **Training Courses** to help our customers' staff members achieve the required levels of competence for the various applications the company may have implemented.
